

Brainspotting

PHASE 2 TRAINING – May 2024

Multi-Cultural International training (ONLINE Zoom in ENGLISH)

What is Brainspotting Phase 2?

In Brainspotting Phase 2 training, participants will learn five advanced Brainspotting set-ups to help titrate clients' level of activation for optimal processing. These precious tools will facilitate working with a wide variety of population.

- One Eye Brainspotting
- Z-Axis and Convergence
- Outside-Inside Window and Rolling Brainspotting
- Advanced Resource Model

As an open and integrative model, Brainspotting can be integrated with other treatment models you are already expert in.

Brainspotting

Voted the most effective trauma treatment by the parents and survivors of the Sandy Hook massacre after a five-year study comparing over 25 therapeutic modalities in bringing relief to the Sandy Hook survivors.

Reflections from participants

This was a great learning experience. I was able to walk away with great tools to start as a Brainspotting clinician. I look forward to more training to increase my knowledge."

~Marquita Garrett, Supervisor, Play Therapist, Clinical Assessor and Consultant

Nancy's way of fostering the concept of universality in such a culturally diverse setting provided a sense of comfort, acceptance and ease through this training.

~Marsha Mudrey, US LCSW

Nancy's Brainspotting training was one of the biggest and most impactful learning experiences for me. This will change my clinical practice and my personal life!

~ Dr. Prawate Tantipiwatanaskul, Psychiatrist and President of Satir Institute of Thailand

Trainer

[Nancy Tung](#) - BSP Trainer and Consultant who works extensively in the Pan-Pacific regions embracing multi-cultural and multi-ethnic diversity. She is the founder of Practice for Systemic Wellness where she provides direct clinical services and consultations to individuals and groups.
